2008 Yearly Healing Report

S. I.R "Soul Integration and Recreation" Healing

Established in December 2002

4000 remote cases with 100% success

Genetic, Immune, Infection, Neurological, Infertility, Metabolic, Cellular I, Eve Anderson as Director and healer on staff, monitor and report on the yearly growth and changes S.I.R healing experiences.

In six years, we have 3 web sites with 13 million hits, six books, 4000+ cases and tens of thousands of health checkups and evaluations. We reach a readership of 47 countries and over 12 countries use us for healing. We have sparked the attention of celebrities, media, rulers and diplomats', Institutes and doctors in Europe and parents of children with genetic and terminal cases. Our unconventional methods that know no boundaries are explained in detail with a 40 slide PowerPoint presentation available to professionals globally. Using higher sources and gifts this spiritual science has been brought up to today's standards and exceeds the expectation and success of any traditional or non-traditional healing to date. As of December 2008 we extend an offer to four European countries for full time use of our method. High profile cases have proven successful and deserve further consideration. In four European countries I can handle 9600 difficult, terminal and chronically ill children. My areas that I wish to concentrate on are Genetic, Infectious and Immune disorders.

2009 New Outbreaks

Predicted increases:

January 1, 2009 until December 31, 2009

•	100% Cellular damaged from use of atom smasher
•	30%+ Mad Cow
•	55%+ New Strain Influenza
•	30%+ Untreatable Staph
•	60%+ Malaria
•	45%+ Genetic Disorders
•	30%+ Obesity
•	25%+ Infertility

Decrease of Immunes ability to work at normal capacity by 45%

This is due in part to Environmental, food, and genetic sources

100 - 200 million acres of Genetic modified foods feed trillions of people today Tests of small intestine destruction were noted and the test were not finished and concluded and documented. That is 1/3 of a person's immune system. The small intestines are the same immune system that keeps the worlds bees healthy. Where the most genetic foods are harvested is where the most bees have died. It takes 50,000 years for the soil to return to normal after genetic modification has occurred.

In the USA, where cows eat foods made from ground cow bones, Mad Cow can get into this source infecting cows. The cows eat mostly genetic modified foods for many years now. This has weakened the immune of the cow in turn dormant Mad Cow is spreading. Bovine products are used inside certain vaccines, insulin, and dairy and beef consumption and in a lesser degree in certain cosmetics and soaps. It can be transmitted by blood transfusions, sexual intercourse, pregnancy, and other ways. Early tests are starting to be tested and hopefully soon many will see what I see and believe what I have healed in my practice.

Questions commonly Asked

Can Miracle work harm people?

NO

Can I heal anywhere in the world remotely?

YES

Once a person is healed will they get sick again?

It depends on how much the client old habits change, of course.

Generally no disorder removed will return for we clear genetic, karmic and environmental reasons as we educate the client on how to support the healing

Does it cost a lot?

We have a sliding scale with our two methods.

SIR 13 page reports can be from \$75-\$150 each treatment takes 2 hours each

2-5 treatments needed for all conditions

"Instant Manifestation" continuous (9-15 days) daily healing with price upon request

One treatment is only needed

Do I need to see people and do physical exams?

NO

Do I need any equipment?

NO

Do I need an assistant?

NO

Do I wish for 3 page evaluation filled out by parents or clients?

YES

How we Communicate and Heal Globally

At our Centre we email or mail 3 page evaluations out to perspective clients. It contains Birth names and dates, contact information, prior and current treatments, limitations, issues to address, and other valuable information. A free detailed checkup is done with each paid session. Percentages of each given organs, disorder, body system is figured out and recorded. This information is always held in total confidential privacy.

Payment is done three methods. One is PayPal, Western Union and in the mail. We do not accept overseas checks or credit cards. PayPal can accept E-checks, credit cards and money withdrawn from your bank account. Payment options are on our web store at www.enlightenmentpathsir.com

We have healed in New Zealand, Australia, Malaysia, Indonesia, China, Belgium, Germany, France, Canada, Mexico, Poland, England, Italy, India, and 30 other countries.

Even with our future contract to heal full time for four selected countries we will have enough time to take on additional cases. The waiting time at the time of this publication is only several hours to several days. Results are emailed within 24 hours of the healing. All clients may continue with daily activity during the healing. Eve Anderson (Sophia) is the only healer. 9000 to 12,000 cases can be done in 48 month time frame.

What we are able and unable to do

Limbs cannot grow back and severe drug addictions need a strong desire with the help of an appropriate facility addressing withdrawal symptoms. All cases under a doctor's care will have communication from Eve Anderson with the client, parent and doctor. Each case will last 9-12 days. It is called "Instant Manifestation" healing and is not the same as the 13 page report and healing with S.I.R. Every day we monitor the progress and additional issues wishing to be addressed. Emails and phone are two methods we use to keep in touch. When tubes, machines and medicines are were given by doctors prior to my help; it is the doctor's that during these 9-12 days monitors and supervises this procedure.

Our Promise to you

85%-100% cure within 9-12 days

Why do we say 85%; because we have found that prior treatment and procedures by traditional medicine that remove and alter may prevent "Instant Manifestation" Miracle healing to restore back to normal. But to this date no one can come close to that promise of even 85%-100% in 9-12 days.

Can anything go wrong?

No, angels, God spirit and gifts of perfection and healing remove man made mistakes and risks.

Does conventional treatment interfere with miracle healing?

No, and sometimes yes, it is always better before traditional treatment to try this quick risk free method that will cost an average 500% less the traditional methods. But we get many kids who after years of treatment doctors have given up on so we are used to that situation.

Traditional Medicine

Hand in hand we work together for results

We have Surgery

We have medicines'

We have machines

We have laser

We have tests

We have feeding tubes

We have wheel chairs and tools for limitations

We are all grateful for all of the above. With "Instant Manifestation "miracle healing the child is 85%-100% restored to normal function without a future need for any of the above. We work with doctors so that the doctor decides along with the parents when and how to remove all these added treatments and tools.

We get percentages of improvement in all areas and convey that information to parent and doctor.

We have a 40 slide presentation for medical professionals to view. This workshop explains in great detail with studies done on how miracle healing could even be possible.

Our Promise and Plans Worldwide Miracles

Do miracles exist and have not yet been discovered?

Do all junk DNA strands serve no purpose?

Have private studies in some countries confirm spontaneous healing?

Our PowerPoint slide workshop proves that we are just starting to tap into other means and other reasons and other solutions. Current health care needs a face lift and complete change.

Worldwide 993 trillion dollars are spent on people trying to get well and for the best manage them until they die.
